

PUBLIC NOTICE AND AGENDA
DHS IRB Meeting on January 9, 2002, Room 210

PROTOCOLS FOR REVIEW:

- **Brenda Ahlemann**, Division of Substance Abuse (DSA), Risk and Protective Factor Phone Survey, DHS IRB # 010181, New Research, affiliated DHS agency is DSA.
- **Ray DePrizio**, Utah State University (USU), Relation Between Parent Functioning & Adopted Children's Well-Being, new research, affiliated DHS agency is the Division of Child and Family Services (DCFS), DHS IRB # 020182.
- **Norma Harris, Ph.D.**, University of Utah (U of U), Mandatory Reporting of Child Maltreatment for Domestic Violence, DHS IRB # 010179, DHS affiliated agency is DCFS, new research previously reviewed in November 2001, requiring additional information and clarification.
- **Caren Frost, Ph.D.**, University of Utah (U of U), Independent Living Program: An Exploratory Study, DHS IRB # 010178, DHS affiliated agency is DCFS, new research previously reviewed in November 2001, requiring additional information and clarification.
- **Lisa McDonald**, Utah Foster Care Foundation, Foster Parent Exit Survey, DHS IRB # 010150, Change to Approved Protocol, DHS affiliated agency is DCFS.

EXPEDITED REVIEWS:

- **Susan Cutler Egbert**, U of U, GSSW, Evaluation of Post-Adoption Supports in Utah, DHS IRB # 010177, DHS affiliated agency is the Division of Child and Family Services (DCFS), Change Request. Navina conducted expedited review on December 18, 2001 and recommended approval. The change request was to add two questions to the survey (1. Do you have easy access to the internet? And 2) Please rate how likely you are to use the internet to find postadoption information and resources (Scale from 1-not at all likely to 7= likely). Mary prepared and signed the approval letter on December 19, 2001.
- **Lisa Cannon Albright, Ph.D.**, Genetic Research Institute, Mapping Depression Susceptibility Genes in Utah Families, # 970038. Affiliated agency is DMH. Annual Review with no changes. Expedited review by Denny and Mary. The enrollment is on hold due to lack of funding. Study is only open for data analysis and ongoing follow-up. No adverse events. One subject voluntarily withdrew from the study because she was extremely concerned about confidentiality. She was encouraged to withdraw. Denny and Mary both recommended approval of the protocol. Mary did the approval letter on December 19, 2001.
